EDUCATION

Information Technology, Universitas Brawijaya   Aug'23 - Present
- Current GPA : 3.93/4.00

High School Diploma - SMA Negeri 1 Majenang   Jun'20 - Jun'23
- Natural Science, Average : 89,76

WORKING EXPERIENCES

Pengelola Sistem Informasi dan Kehumasan (PSIK)   March'24 - Present
Website Development (Internship)

- Developing Website Content : 36 content articles, on average three each week, are managed and developed for the Faculty of Vocational Studies UB's official website. Articles promote faculty communication both internally and externally by covering a variety of topics, including academics, student activities, and public information.
- Increase Website Traffic : Reached a record-breaking 139 visits per week, which is 250% more than the average for other articles created by the intern team.
- Simplifying Complex Information : Reducing complicated and technical material to articles that a broad readership can understand, which will improve institutional communication and reader engagement.

PT. SIETO UTAMA   July'25 - Present
Full-Stack Programmer (Internship)

- Developing Front-End Flutter App : Actively involved in developing scalable and real-time smart public transport applications, with a primary focus on the front-end using Flutter.
  - Build and implement an intuitive and responsive user interface (UI) based on provided designs.
  - Develop core features of the application, such as real-time vehicle tracking, route information, and trip schedules.
  - Work closely with back-end teams for API integration processes, ensuring seamless and accurate data flow across applications.
